

CITY OF WILLIAMSBURG

MEMORANDUM

TO: Planning Commission

DATE: January 20, 2004

**SUBJECT: Comprehensive Plan Update
Planning Commission List of Major Issues**

As discussed at the last work session, the major topic for this work session will be developing a consensus list of the Commission's major Comprehensive Plan Issues. We will compile a list of Commission member's major Comprehensive Plan issues, and then do a "dot map" exercise, giving each member 20 dots to place on a map of the City, indicating geographically where the critical areas are located. Each Commissioner can put each dot on an individual area, or put all dots on a single area.

Following the list and map exercises, we will refine the Commission's major Comprehensive Plan issues into a list and a map. The results of this exercise will be reported to City Council at their work session in February.

Bring your list of issues with you. We will provide the dots.

A handwritten signature in black ink that reads 'Reed T. Nester'.
